

## Random sample experiment with tokens

### Cloze test

It is **impossible** to pull a red token from a cup that does not have any red tokens.

It is **certain** to pull a red token from a cup that has only red tokens.

It is **impossible** to pull a blue token from a cup that has only red tokens.

It is **possible** to pull a red token from a cup that has the same number of red and blue tokens.

It is **likely** to pull a blue token from a cup that has more blue than red tokens.
