

## Structure of the ear (ES)

Current as of: February 26, 2016

- KidsHealth – the body – the ear (en, sp):  
The page contains basic information on the ear and hearing topics.  
<http://kidshealth.org/en/kids/ears.html>
- The senses – University of Washington:  
The website contains easy-to-use information for children (various grades) and tips regarding experiments on the five senses including hearing.  
<http://faculty.washington.edu/chudler/chsense.html>
- Hearcom.eu (de, en):  
The structure of the ear is illustrated and explained very clearly using examples from the students' world.  
<http://hearcom.eu/main/Informationonhearing/Howwehear.html>
- Planet Schule: Wissenspool total phänomenal "Super ears"  
This film shows how hearing works for humans and animals. It also explains the meaning of hearing in daily life, for example, for communication.  
<http://www.planet-schule.de/wissenspool/total-phaenomenal-sinne/inhalt/sendungen/super-ears.html>

Note: On the Web you will find many pages with audio examples that demonstrate a hearing loss. To find such examples, you can enter the terms "hearing loss" and "demo" into a search engine.
